### PROFESSIONAL SUMMARY

**Frontend Engineer** with First-Class Computer Engineering background and 2+ years of experience building responsive web applications using React, TypeScript, and modern CSS frameworks. Successfully translated UI/UX designs into performant, accessible interfaces that improved user engagement metrics and application performance.

### SKILLS

**Frontend:** React, Next.js, JavaScript (ES6+), TypeScript, Redux, Redux Toolkit

**Styling:** Tailwind CSS, CSS Modules, Responsive Design, Flexbox/Grid

**Tools & Methods:** Git, Axios, REST APIs, Vite, Agile/Scrum, Cross-Browser Testing

### WORK EXPERIENCE

#### Junior Frontend Engineer

*Clearer Limited*

06/2025 – Present

Lagos/Nigeria

- Developed responsive web applications with **React and TypeScript**, improving Lighthouse Performance scores by **over 50 points** through code-splitting and image optimization.
- Implemented **Redux for state management** across complex features, reducing prop-drilling and improving code maintainability.
- Built **accessible, semantic UIs** following WCAG guidelines and ensuring consistent rendering across Chrome, Firefox, and Safari.

#### Frontend Engineer

*Freelancing*

07/2022 – 06/2025

Lagos/Nigeria

- Partnered with clients and designers to develop and launch responsive, pixel-perfect websites using **HTML5, CSS3, and JavaScript**, directly improving user engagement and reducing bounce rates.
- Architected and integrated modern frameworks like React to streamline development, enhance performance, and ensure long-term maintainability for scalable client projects.

#### Frontend Developer Intern

*KPMG Nigeria*

02/2023 – 06/2023

Lagos/Nigeria

- Engineered responsive web applications with modern **HTML, CSS, and JavaScript**, focusing on semantic structure, accessibility, and cross-browser compatibility.
- Built and styled interactive static web pages, implementing responsive design principles (**Flexbox/Grid**) to ensure a seamless experience across all device sizes.

# PROJECTS

<b>Swetche Affiliate Partner Portal (In Development)</b> <i>Frontend Engineer</i> <ul style="list-style-type: none"><li>• <b>Developing a real-time affiliate dashboard</b> using React, JavaScript, Redux, and TailwindCSS to enable 500+ users to track commissions and referrals seamlessly.</li><li>• <b>Integrating RESTful APIs</b> with Axios to achieve &lt;2s page load times and ensure consistent data accuracy across user sessions.</li><li>• <b>Building an auto-updating notification system</b> with polling functionality that delivers real-time alerts without manual refresh.</li></ul>	11/2025 – Present
--	-------------------

<b>Swetche Tresury/Trade Portal (In Development)</b> <i>Lead Frontend Engineer</i> <ul style="list-style-type: none"><li>• <b>Engineering an internal trade operations portal</b> using React, JavaScript, TailwindCSS and Vite to replace manual spreadsheet logging with a secure digital system for transaction entry and automated dual-commission calculations.</li><li>• <b>Building comprehensive dashboards</b> for affiliate partners and customers with detailed commission tracking and transaction history, providing full financial visibility and audit readiness for management.</li><li>• <b>Integrating REST APIs</b> using Axios to ensure seamless data flow and real-time updates across the platform.</li></ul>	12/2025 – Present
