## PROFESSIONAL SUMMARY

Frontend Engineer with 3 years of experience building high-performance web applications using React, TypeScript, and Next.js. Expert in creating responsive, accessible interfaces that improve user engagement and optimize performance. Proven track record of delivering scalable solutions for fintech platforms.

## SKILLS

**Frontend:** React, Next.js, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, CSS Modules, Responsive Design

**Tools & Methods:** Git, Axios, REST APIs, Vite, Agile/Scrum, Cross-Browser Testing

## WORK EXPERIENCE

### Clearer Limited, Frontend Engineer

Jun 2025 – Present | Lagos/Nigeria

- **Architect, develop, and maintain** five interconnected React applications serving 500+ users with real-time financial operations.
- Improved Lighthouse scores by 50+ points through code-splitting and bundle optimization, achieving 30% faster load times.
- Implemented Redux Toolkit across complex features, reducing prop-drilling by 70% and improving maintainability.
- **Provide ongoing maintenance and feature enhancements** to ensure high availability and performance of production systems.

### Freelancing, Frontend Engineer

Jul 2023 – May 2025 | Lagos/Nigeria

- Delivered 15+ responsive websites and web applications for diverse clients, achieving 95% client satisfaction rate
- Translated UI/UX designs into pixel-perfect implementations using modern frameworks (React, Next.js)
- Reduced project development time for clients by 25% through reusable component libraries and optimized workflows.

### KPMG Nigeria, Frontend Developer Intern

Jan 2023 – Jun 2023 | Lagos/Nigeria

- Contributed to the KPMG ACE web application, a platform connecting manufacturers with suppliers to streamline sourcing processes and exhibition opportunities
- Applied responsive web development skills (HTML, CSS, JavaScript, Flexbox/Grid) to build accessible, cross-browser compatible interfaces under professional guidance

## KEY PROJECT

### Swetche Financial Platforms,

Aug 2025 – Present

Suite of five interconnected applications serving 500+ users

- **Marketing Website:** Built a responsive marketing platform using **Next.js, TypeScript, and React**, achieving a **30% performance improvement** through optimization and modern frontend architecture.
- **Affiliate Portal:** Developed a real-time partner dashboard serving **500+ users** with commission tracking and live notifications using **React, Redux Toolkit, JavaScript, Vite, and Tailwind CSS**, improving operational visibility and efficiency.
- **Trade Operations System:** Engineered an internal operations portal with automated commission calculations and reporting using **React, Redux Toolkit, JavaScript, Vite, and Tailwind CSS**, reducing manual processing and improving accuracy.
- **Swetche Web App:** Enhanced a multi-step onboarding workflow, enabling users to register as **Business or Individual accounts** using **React, JavaScript, Vite, and Tailwind CSS**, improving user experience and onboarding completion rates.
- **Admin Portal:** Built a comprehensive administrative interface for user management and compliance monitoring using **React, JavaScript, Vite, and Tailwind CSS**, streamlining internal operations.

## EDUCATION

### Olabisi Onabanjo University, Bachelor of Computer Engineering

Oct 2018 – Jan 2024 | Ogun/Nigeria

First Class Honors with a CGPA of 4.63/5.00
